REVENUE CYCLE TECHNOLOGY

NAVICURE + ZIRMED

Address revenue cycle problems at the root ...and achieve sustainable financial success

navicure[®] PERFORM[™]

helps solve common reporting issues, including:

Practice data and information housed in a number of disparate locations

Time needed to collect, generate and analyze reports

Utilizing historical data to conduct operational analyses rather than real-time data

Revenue cycle waste has a price tag in the hundred billions; medical billing complexity alone wastes more than \$375 billion annually. Practices are continually challenged to maximize revenue collection and accelerate cash flow, while also increasing staff productivity and finding new ways for staff to work smarter, not harder.

At the heart of these inefficiencies are revenue cycle bottlenecks, which can reoccur weekly, daily, hourly or even more frequently. Healthcare organizations must identify these bottlenecks and understand why they occur before gaining long-term, sustainable revenue cycle improvements. Navicure[®] Perform[™] allows clients to quickly find the insights they need in real time, with feature-rich reporting software.

navicure[®] PERFORM clients have reduced bad-debt write off, days in A/R and time spent reporting and compiling data with 4 key features:

Flexible dashboards let you zero in on issues in four key performance areas: submission, rejection, denial, and cash flow

CLIENT EXPERIENCE

4% increase in net collections

Aggregate enterprise-wide data, across disparate locations, databases and practice management systems—so you can review and gain maximum insight

CLIENT EXPERIENCE

20% increase in revenue collection without increasing number of patients seen

Powerful filters to slice the data any way you'd like with turnkey, interactive, and agile reports that make it easy to gain insights and resolve issues

CLIENT EXPERIENCE

up to 20% reduction in time spent managing denials and rejections

Drill down into remittance and claim data details so you can take action to resolve issues and improve cash flow in real time.

CLIENT EXPERIENCE

50% decrease in days in A/R

navicare® Clients Have Said:

"[We] used to have to extrapolate all of the data, drop it into spreadsheets, create pivot tables, etc., to generate the needed reports, which could take 4-6 hours per report versus less than 30 minutes post-Navicare Perform."

- ADMINISTRATIVE DIRECTOR,
SMALL PRACTICE

"Navicare Perform has helped us make staff 10% more efficient on average, and freed up 35% of the claim administrator's day, allowing them to focus more on collections than submissions."

- ADMINISTRATOR,
SMALL PRACTICE

"I'm able to print reports that show exactly the data our leadership wants to see, all in a compelling visual format."

-ADMINISTRATIVE DIRECTOR,
MID-SIZED PRACTICE
